Re: Administrative Order
Docket No. **SDWA-08-2003-0060**
PWS ID #WY5601004

Dear Mr. Aron:

Enclosed you will find an Administrative Order (Order), which the Environmental Protection Agency (EPA) has issued under the authority of the Safe Drinking Water Act (SDWA), 42 U.S.C. Section 300f et seq., and its implementing regulations. Among other things, the Administrative Order finds that Seven Mile Water and Sewer District (Respondent) is a public water supplier as defined by the SDWA and that it has violated the National Primary Drinking Water Regulations (NPDWRs) at 40 C.F.R. §§ 141.21, 141.86, 141.201, 141.31(b), and 141.21(g)(2) for: failure to monitor for total coliform bacteria; failure to monitor for lead and copper; failure to provide public notice of the violations; and failure to report violations to EPA.

If the Respondent complies with the enclosed Order for a period of at least twelve months, EPA may choose to close the Order. Violating the enclosed Order may lead to (1) a penalty of up to \$27,500 per day of violation of the Order, (2) a separate such penalty for violating the regulations themselves, and/or (3) a court injunction ordering the Respondent to comply.

Among other things, the Order calls for Seven Mile Water and Sewer District to provide a public notification for certain monitoring requirements that were not met. For your convenience, we have enclosed some template forms to assist you in providing the required public notice. If you have any questions or

comments concerning the form of the public notice, please do not hesitate to contact Eric Banghart of the EPA, whose telephone number is provided in the last paragraph of this letter.

Also enclosed is a Small Business Regulatory Enforcement and Fairness Act (SBREFA) Section 22 information sheet. The SBREFA sheet notifies small businesses of their right to comment on regulatory enforcement activities and provides information on compliance assistance. Dissemination of this information sheet does not constitute an admission or determination by EPA that the Seven Mile Water and Sewer District is a small entity as defined by SBREFA.

Please note that the effective date of the enclosed Order is the date of issuance. Within the next 10 days, please provide EPA with any new information that you believe the Agency is not aware of relating to the violations alleged in the Order. You may send the information to Eric Banghart at the address on the letterhead, including the mailcode 8ENF-W, or you may call Mr. Banghart at (800) 227-8917, extension 6971, or (303) 312-6971. If you wish to have an informal conference with EPA, you may also call or write Mr. Banghart. If you are represented by an attorney, please feel free to ask your attorney to call Peggy Livingston at the above 800 number, extension 6858, or at (303) 312-6858.

We urge your prompt attention to this matter.

Sincerely,

5. According to a May 2002 sanitary survey by an agent for EPA, the System purchases treated surface water from another public water system, the Town of Laramie, and serves approximately 90 persons per day through 40 service connections and is operational all year. The System was reactivated as a public water system as of March of 2000.

FINDINGS OF VIOLATION

I.

1. 40 C.F.R. § 141.21(a) requires community public water systems to monitor their water at least once per month to determine compliance with the Maximum Contaminant

Level (MCL) for total coliform bacteria as stated in 40 C.F.R. § 141.63.

2. Respondent failed to monitor the System's water for contamination by total coliform bacteria during the months of May and November of 2001, in violation of 40 C.F.R. § 141.21(a).

II.

1. 40 C.F.R. § 141.86(d)(4) requires community water systems to monitor tap water for lead and copper annually after meeting the lead and copper action level.
2. Respondent failed to monitor for lead and copper in 2001 and 2002 in violation of 40 C.F.R. § 141.86(d)(4).

III.

1. 40 C.F.R. § 141.201 requires owners and/or operators of public water systems to notify the public of any national primary drinking water regulations ("NPDWR") violations, including violations of the maximum contaminant level ("MCL"), maximum residual disinfection level ("MRDL"), treatment technique (TT), monitoring requirements, and testing procedures in 40 C.F.R. Part 141.
2. Respondent has not provided public notice of the noncompliance detailed in the preceding Sections I and

II, in violation of 40 C.F.R. § 141.201.

IV.

1. 40 C.F.R. § 141.21(g) (2) requires public water systems that have failed to comply with a total coliform monitoring requirement under 40 C.F.R. § 141.21 to report the monitoring violation to EPA within 10 days after the system discovers the violation.
2. Respondent failed to report to EPA the noncompliance detailed in Section I, in violation of 40 C.F.R. § 141.21(g) (2) .

V.

1. 40 C.F.R. § 141.31(b) requires public water systems to report any failure to comply with any National Primary Drinking Water Regulation (40 C.F.R. Part 141) to EPA within 48 hours.
2. Respondent failed to report to EPA instances of noncompliance detailed in Sections II and III, in violation of 40 C.F.R. § 141.31(b) .

ORDER

____Based on the foregoing Findings, and pursuant to Section 1414(g) of the Act, IT IS ORDERED:
